

The Indiana Section AWWA is pleased to offer a professionally produced DVD presentation for use in schools, service organizations and public meetings.

This 11 minute DVD provides an excellent fundamental overview of the drinking water industry and our role in protection of public health.

This DVD was prepared to educate the general public regarding the important issues associated with providing safe and plentiful drinking water supplies.

It is available for \$25 at the district meetings and the annual conference, or for \$35 (to include shipping & handling) by filling out the attached form.
