INAWWA / IRWA — OUR FUTURE TOGETHER

Indiana Section American Water Works Association (INAWWA) and Indiana Rural Water Association (IRWA) joined forces under the INAWWA name in 2020. This has resulted in a strengthened INAWWA that is now the largest non-profit association serving the State's water industry.

Founded in 1968, IRWA focused on providing education and technical assistance to water and wastewater operators, utility boards, clerks, elected officials and other stakeholders across the State of Indiana.

INAWWA was founded in 1908 and is the authoritative resource for promoting safe drinking water, public health, safety, and welfare by uniting the efforts of the full spectrum of the drinking water community in the State of Indiana. Through our collective strength, INAWWA provides timely educational forums, open communications, and support for technical, legislative, and regulatory activities to advance the technology, science, management, and government policies relative to the stewardship of water.

Members of INAWWA represent the full spectrum of the water community: public water and wastewater systems, environmental advocates, scientists, academicians, and others who hold a genuine interest in water, our most important resource.

Our national affiliate, the American Water Works Association, is an international, nonprofit, scientific and educational society dedicated to providing total water solutions assuring the effective management of water. Founded in 1881, the Association is the largest organization of water supply professionals in the world.

Safe drinking water and a reliable water infrastructure are key drivers for healthy communities and a healthy economy. Together, the merged INAWWA is:
