

Astbury Water Technology, Inc.

Wastewater Apprentice Position – Warsaw, IN Area

April 5, 2022

Background

Founded in 1979, Astbury Water Technology, Inc. (Astbury) is a leading provider of water and sewer utility operations and maintenance (O&M) services. With four office-laboratory locations and three regulated water and/or sewer utilities throughout Indiana, we have the resources to support customers with a full range of services, including system management, routine O&M, laboratory analysis, and customer billing. Our organization's success is a direct result of dedicated and hardworking employees, high standards of service and ethics, and a unique offering of services and solutions. Astbury, which continues to be family-owned and operated, maintains an entrepreneurial business philosophy dedicated to serving the market's needs.

Job Description

Astbury is seeking an ambitious individual interested in becoming a certified water or wastewater operator. Possession of an Indiana Wastewater *or* Water Operator's License is not required for this position. The successful candidate will have the opportunity to obtain a license through education courses and on-the-job training while working as an apprentice for the company. The successful candidate will be a self-motivated and trustworthy person looking for an excellent opportunity with a well-established and growing company. This position, which will report to Astbury's Facility Managers, is ideal for those who are flexible and can handle working independently at times.

This position will ultimately involve the operation of treatment systems in Kosciusko and surrounding counties, including Class I/II Wastewater Treatment/Collection Systems. All laboratory testing is done by our in-house network, so duties will be limited to routine operations and maintenance, including field testing, equipment adjustments, grinder station service calls, periodic "on-call" responsibilities, and monthly reporting.

General Skills & Experience

Candidates with a background in environmental science or biology – or those with mechanical aptitude – are encouraged to apply. A premium will be placed on individuals with strong oral and written communication, reliability, and work ethic. Astbury offers a wide array of services and prefers to keep employees somewhat interchangeable, so we are seeking job candidates who are capable of and interested in learning and performing a range of related tasks and projects. Also, in emergency situations, employees will sometimes need to be on-call nights, weekends, and holidays.

Education & Certifications

This position requires:

- A High School Diploma
- A valid Drivers' License

- Commitment to obtain certification

Compensation

This is an entry-level position with ample opportunities for advancement. Compensation is based on experience and overall suitability for this position. We offer competitive pay, paid time-off, health insurance, company vehicles, and 401k retirement plans. We are strongly committed to retaining talented and hard-working employees. Astbury is an Equal Opportunity Employer.

Additional compensation will be considered for: electrical and/or mechanical certification or capabilities, lift station maintenance capabilities, greater Levels of experience and education, and managerial experience.

Further Information

We wish to fill this position as soon as possible; if you are interested and feel you are well-suited, please email us or submit a résumé to: AstburyJobs@AstburyGroup.com.
